Profile

Software engineer completing a Master's degree, with nearly 4 years of experience in web development. Accustomed to real client environments (ERP, WMS, Intranet), from design to production. Product-minded and driven by technical challenges, I am looking to join a dynamic engineering team to contribute to meaningful projects.

Professional Experience

Full-Stack Web Developer — Apprenticeship

Sept. 2023 – Present

Planet Bourgogne · Dijon, France

- Custom WMS: lead developer, V1 shipped in **6 weeks**
- B2B platform (**500M/year**): feature development, refactoring, performance optimization
